## **Abstract**

*Four Votive Images from Southern Transylvania (XVIII<sup>th</sup> – the Beginning of XIX<sup>th</sup> Century)*

*This article describes four votive images from the churches of southern Transylvania. The first two from Prejmer and Cristian, Braşov county, are mercantile foundations, and the second two, from Teiuş, Alba county, and Turnu Roşu, Sibiu county, are noble or princely foundations. These votive images are significant because they testify and ascertain the initial architecture of the monuments and influences from Wallachia brought in Transylvania on political and economic ways.*

**Keywords:** *votive image, merchant, nobleman, prince, Braşov, Sibiu, Alba*
