

Agile Networks Technologies

WORK & LEARN

We're ready for you.

When you intern at Agile Networks Technologies, you have the chance to gain hands-on experience that will help you grow your professional background. Here, you'll apply your skills in a supportive and collaborative environment while interacting with teams and leaders across the company.

Meet ANT

We are solution partners for software development companies in the fields of eCommerce, sales, and integrated services. We help our clients in building an impressive customer journey and a sustainable acceleration of their digital business.

Here at ANT, we believe in leadership at eye level, personal integrity, and excellence. We always do our very best in every situation and we constantly focus on expanding our skills through learning and increasing knowledge. Our colleagues are the key to our success, which is why we want the very best people as part of our team.

Meet the mentors

Our highly qualified colleagues will teach and guide you during a two-month training program that will allow you to test your career options, develop Java Programming skills and establish relationships with the great people.

"Hi! I'm Diana, and I'm a Java Software Engineer who graduated two years ago at the Technical University of Cluj-Napoca, the Computer Science department. I wanted to get involved in this internship as a mentor because I know what it's like to be in your shoes and I believe I can help you learn great things during this two month journey."

Diana Rus

"Hi! My name is Sanda and I'm a Senior Java Engineer with a passion for teaching. My goal is to lure you into the Java ecosystem and I'm looking forward to learn about your interests."

Sanda Popa

The Java logo, which consists of a stylized coffee cup with three flames rising from it, positioned to the left of the word 'Java' in a bold, dark blue, sans-serif font.
